The Patient Registry is a mechanism to identify patients receiving the Health Links approach to care for measuring and monitoring purposes. Through this identification, data for this patient population can be pulled for the purpose of quality improvement and third-party evaluation. The webinar will address the required data elements and process for submission to help meet the Health Link funding terms and conditions.

Objectives:

- Understand the purpose and importance of the Health Links Patient Registry
- Learn about the data that will be collected utilizing a standardized approach across the province
- Understand how the data will be used and why it is important for this patient population
- Know how to submit data for the Patient Registry

Speakers:

Nadia Surani, Director, Primary Health Care Branch

Dr. Walter Wodchis, Associate Professor, Institute of Health Policy, Management and Evaluation, University of Toronto, Research Scientist, Toronto Rehabilitation Institute, Adjunct Scientist, Institute for Clinical Evaluative Science

Heebah Sultan, Senior Health Data Analyst, Information Management, Care Innovations and Planning, Health Shared Services Ontario

Michael Spinks, Director Quality, Technology, Analytics and Performance, South East Local Health Integration Network

Moderated By:

Lorri Eckler, Director, Quality Improvement, Program Delivery, Health Quality Ontario
